

ORMO Start — built around the essentials

The lightest and most accessible camper in the ORMO lineup

Comfortable, practical, and easy to upgrade, Start is designed to grow with your travel ambitions.

Full-cycle production

We handle the entire process — from designing and producing sandwich panels to sewing furniture upholstery — ensuring quality at every stage.

Materials and accessories

We use only premium materials and components from top international brands, including Dometic, Eberspächer, Webasto, Optiplan, and Sika.

Ergonomics and comfort

Our designs prioritize ergonomics and comfort. In compact living spaces, every detail is crafted for functionality and ease of use.
